Construction Battalion Unit Realignment

On 18 October 2004, the Chief of Naval Operations sent out OPNAV INST 3111 which realigned or disestablished Construction Battalion Units (CBUs), and relocated a number of Construction Battalion Maintenance Units (CBMUs). The purpose was to align active CBUs with reserve CBMUs into two active CBMUs with reserve DETs to enhance command and control. The alignment enhanced command and control of the units and improved responsiveness to combat commanders.

The revised mission for the CBMU was "to deploy rapidly to provide follow-on operations, maintenance, repair and limited construction capabilities at advance base shore facilities constructed by Naval Mobile Construction Battalions (NMCBs) ... Provide Forward Operating Base (FOB) facility and logistic support to designated Marine Expeditionary Force (MEF), Marine Expeditionary Group (MEG) Command Elements, and NSW squadrons... Operate, maintain and repair shore facilities and utilities in support of forward deployed, ground-based, fleet hospitals ... Construction Readiness Training (CRT) projects at designated Naval shore activities."
