COVERS—Front: In Ted Wilbur's "summer fun" illustration, Grampaw Pettibone appears to be bored during a roller coaster ride, which obviously can't compare to the thrill of flying naval aircraft. Back: a student Naval Flight Officer trains in a UC-45J *Kansan* at VT-10 in the early 1960s. VT-10 celebrates its 40th anniversary in July (see article in Sep-Oct 00). This page: Ted Carlson captured an SH-60B *Seahawk* from HSL-45 landing aboard *John Young* (DD 973).
