NARRATIVE

USS BREMERTON has had a challenging and eventful year. The year started with the ship in holiday stand-down, giving our sailors a much needed break. Following stand-down the ship conducted a series of local operations in preparation for an upcoming deployment.

During this period of local operations Pre Overhaul Testing and Pre Availability Testing were completed in preparation for an Engineering Refueling Overhaul. Following this BREMERTON completed a Pre Overseas Movement Certification in preparation for a Western Pacific Deployment.

During the deployment to the Western Pacific BREMERTON conducted two missions vital to national security and made a quality of life port call in Saipan.

After deployment BREMERTON returned to San Diego and conducted a successful change of homeport to Pearl Harbor, HI. Upon arrival in Pearl Harbor, the ship entered a transition period allowing crewmembers to complete the move along with final preparations for entering an Engineered Refueling Overhaul.
