1. Command History and Organization

The mission of USS FITZGERALD (DDG 62) is to conduct prompt, sustained combat operations at sea in support of U.S. National Policy. FITZGERALD is equipped to operate in a high density, multi-threat environment as an integral member of a Carrier Battle Group, Surface Action Group or underway replenishment group. FITZGERALD's combat systems provide capabilities in Anti-Air Warfare (AAW), Undersea Warfare (USW) and Anti-Surface Warfare (SUW), projecting power throughout all spectrums of maritime operations.

USS FITZGERALD (DDG 62) is home ported in San Diego, California and assigned to Destroyer Squadron Twenty Three, with Unit Identification Code R21824. CDR John P. Neagley is the Commanding Officer.

3. Summary of Events.

The start of 2002 FITZGERALD was assigned to participate in Theatre Ballistic Missile Defense testing, Flight Mission II (FM-2) at the Pacific Missile Range Facility (PMRF) Kauai, Hawaii with the USS LAKE ERIE.

The months of February and March, FITZGERALD started to enter its pre-deployment workups. The ship also conducted its Engineering Demonstration receiving an "above average" final grade.

From the beginning of April through the end of May, FITZGERALD participated in TBMD testing, Systems Integration Test II (SIT-II). The ship left San Diego enroute the South Pacific to the Ronald Reagan Missile Range. After several brief stops for fuel at Kwajalein atoll FITZGERALD left for Guam. FITZGERALD spent one week at Naval Station Guam before proceeding back to the missile range for additional testing. After the testing was completed FITZGERALD sailed for homeport San Diego preparing for the Final Evaluation Problem (FEP). During the summer months FITZGERALD spent a fair amount of time operating off of the California coast. The ship hosted some of America's prominent business leaders each for a day of Naval Operations with the Leaders to Sea program. FITZGERALD participated in MILLENNIUM CHALLENGE '02, a large-scale Joint exercise, designed to test a series of systems for futuristic battles. This war game allowed the crew to train in all aspects of Naval engagement including ASW, SUW, and AAW. The ship also conducted Naval Surface Fire Support (NSFS) off of San Clemente Island during this same time.

The fall of 2002 proved to be intense with pre-deployment training. The ship participated in CEC events 10, 12 and 13 as well as ammunition onload in Seal Beach, California followed by the December holiday leave period. FITZGERALD spent 130 days underway.
