3. (U) Narrative of Events.

The Golden Hawks of VAW-112 have written an unprecedented chapter in readiness during its work-up cycle. The squadron started work-ups in January. Two deployments to NAS Fallon and no less than ten underway periods aboard three different Pacific Fleet aircraft carriers has rendered the squadron completely prepared for combat. VAW-112 has been the "quiet warriors" while successfully tackling an extremely arduous work-up cycle. VAW-112 embarked aboard USS Nimitz (CVN-68) on 1 December 1995.
