- ✓ Deliver only straight unequivocal information to families with honesty and empathy (although painful, the truth is always most supportive to the families).
- ✓ Guide family member expectations from the beginning of the operation.
- ✓ Accommodate families' requests (group or individual situations) to the maximum extent possible and recognize that some requests cannot be met.
- ✓ Remain flexible, allow room to adapt and evolve to meet new requirements and family needs.

MEMORANDUM FOR PENTAGON FAMILY ASSISTANCE CENTER STAFF

SUBJECT: Requests for family member contact information

1. We have received a number of inquiries from concerned individuals, private organizations, and federal, state and local governmental officials for families' contact information, for the purpose of offering condolences or informing families of benefits or services available to them. This is to reiterate that the Privacy Act prohibits release of this contact information outside the Federal Government without the permission of the individuals concerned.
2. **Federal Government.** The Privacy Act does not prohibit the sharing of information within the Federal Government. You may provide such information to another office/agency with a valid official purpose for requesting it.
3. **Individuals and Private Organizations.** Normally, these expressions of condolences and offers of assistance require no response, and should be routed to Casualty Assistance Officers (CAO) through service representatives. Refer callers to the following offices:
 - a. Army Casualty Affairs Operations Center, (____) _____ or _____ (fax)
 - b. Navy Casualty Office, (____) _____ or _____ (fax)
 - c. DIA Casualty Affairs, (____) _____ or _____ (fax)
 - d. American Airlines, (____) _____ or _____ (fax)
4. **Elected officials.** If you receive a request for contact information (names, addresses, phone numbers) from federal, state or local government officials, I suggest the following response:

Thank the caller for his/her concern, and inform the caller that the Privacy Act prevents release of victims' or families' contact information without their express permission. To minimize intrusion on the families, suggest that the caller's office send any information or expressions of condolence to the service representatives for transmission to the CAOs. Reiterate that we will be happy to inform families of benefits or assistance available—they may pass this to our Administrative Section at (____) _____ (voice) or _____ (fax).

If the caller's office still wishes to obtain the contact information, inform them that this Family Assistance Center's mission is to support the families, and we are not staffed in such a way that we can track or respond to the request. However, the three service legislative affairs offices have agreed to handle the response. Each office will relay the request to the CAOs, who will, in turn,

inquire of the families whether they wish to release contact information. The Legislative Affairs Office will then send a list of the families agreeing to the release of contact information. Inform the caller that they should put their request in writing, and contact the following:

- a. Army Legislative Affairs, (____)_____ or _____ (fax).
 - b. Navy Legislative Affairs, (____)_____ or _____ (fax).
 - c. DIA Legislative Affairs, (____)_____ or _____ (fax).
