## **CNO, Flag Plot-Vietnam, 1959-1973**

### **COLL/20**

**Creator:** Chief of Naval Operations Flag Plot Office

**Extent:** Total boxes: 230  
Cubic feet: 77

**Inclusive Dates:** 1959-1973

**Access:** Open to the public but many records remain classified or are awaiting a “referral review by other agencies”.

**Classification:** The collection had an initial “Declassification Review” followed by an OSD/EUCOM in 2003 and Kyl-Lott review in 2007-2008. Many of the records remain classified or have been referred to other agencies for final review.

#### **Scope and Content Notes**

This collection contains records culled from the area files of the Chief of Naval Operations Flag Plot Office. The bulk of the records relate to naval operations in the South Asia Theater and the Republic of Vietnam (South Vietnam). The Subject Files series contains records relating to United States military operations world-wide. The originating activities functional arrangement has only been maintained in the Subject Files series, box 181-199; the remainder, box 1-180 and 200-221, while approximating original higher level arrangement, have been to a large extent re-arranged topically in the body of the collection.

Information on this subject also is included in the more general records of that group, including the following sub-series of briefing notes:

- (1) Briefing notes/OPSUMS, 1964 – 1973
- (2) CNO Briefs, 1968 – 1970
- (3) SECNAV Briefs, 1967 – 1969
- (4) Special Briefings, 1967 – 1973

The principal topic of the collection is military operations in the South East Asian Theater. The majority of the records were created during the height of direct United States military operations in the Republic of Vietnam. Portions of the collection relate specifically to other areas of South East Asia, Korea and U.S. military operations world-wide.

**SERIES II: YANKEE TEAM Operations**

EARLY EFFORTS TO REDUCE INFILTRATION directed Admiral Felt on May 19 to launch the program, called **YANKEE TEAM**, along specified infiltration routes leading from North Vietnam through Laos into South Vietnam, and against the Ban Thay military installation east of Muong Phine. He barred over flights of North Vietnam and the area west of 105 degrees in Laos. Admiral Felt, in turn, assigned the first mission to General Moore who scheduled four **ABLE MABLE** RF-101s of the 15th Tactical Reconnaissance Squadron based at Tan Son Nhut Airfield, South Vietnam, the same day (May 19).<sup>\*42</sup> On the 21st the Joint Chiefs of Staff ordered another reconnaissance mission that was flown immediately by both Air Force RF-101s and Navy RF-8As, the latter from the carrier *Kitty Hawk*. On the same day, Admiral Felt designated the MACV commander, coordinator of the Air Force-Navy reconnaissance missions, a responsibility quickly redelegated by COMUSMACV to General Moore, 2d Air Division Commander.

On December 4, Westmoreland assigned to General Moore “complete responsibility for the planning, scheduling, and conduct of **STEEL TIGER** and **TIGER HOUND** operations” (in contrast, **YANKEE TEAM** reconnaissance would remain a MACV/2d Air Division coordinated effort). He also directed Moore to establish an Air Force/Army/Marine Corps **TIGER HOUND** Task Force to complete the planning and to coordinate all of the air resources for the new anti-infiltration air program.
