OPERATIONS

The Operations Department schedules every training and flight event at VAW 120. This group of officers works closely with the Training Department on a daily basis ensuring every element of the CNO syllabus is completed for category I through category IV students. In 1997, 62 pilots, 70 Naval Flight Officers (NFO's) and 19 C-2A(R) enlisted Naval Aircrewmembers completed the E-2C and C-2A(R) training syllabi. The squadron logged 7082 total flight hours, all of which were class "A" mishap-free. Squadron personnel developed and presented numerous VIP orientation briefings and aircraft indoctrination tours for visiting groups and prospective Carrier Air Wing Commanders. Additionally, VAW 120 trains foreign military students of Egypt, France, Singapore, and Taiwan.

The Operations Department scheduled and coordinated four Field Carrier Landing Practice and five Carrier Qualification detachments. These comprehensive tasks included determining the aircraft assets required, training to be completed, field or carrier usage, billeting, maintenance support, funding and other miscellaneous items. Operations was responsible for scheduling and contracting Air Intercept Control (AIC) aircraft assets which were employed for student NFO's to become AIC qualified.

VAW 120 is routinely tasked with providing tours for visiting groups such as the Naval Reserve Officer Training Corps, the Naval Junior Reserve Officer Training Corps, the Sea Cadets and the Boy Scouts of America. These briefings are designed to orientate prospective naval officers and enlisted personnel to the capabilities, limitations and mission of the E-2C "Hawkeye" and the C-2A(R) "Greyhound".

MAINTENANCE

The Maintenance Department at VAW 120 provides the aircraft maintenance support necessary to accomplish the command's training mission. It currently provides all scheduled, unscheduled and special maintenance requirements for 12 E-2C and 5 C-2A(R) aircraft. As the largest department in the squadron, it contains approximately 70% of all permanently assigned personnel consisting of over 200

enlisted maintenance personnel, 19 Chief Petty Officers and 12 Officers.

SAFETY DEPARTMENT

CY 97 was another impressive year of operational safety for the Greyhawks. The squadron flew 7082 hours and logged 1396 arrested landings. Highlights for the year include:
