Fighter Squadron ELEVEN, better known as "The World Famous Red Rippers", claims the distinction of being the oldest continuously operating naval aviation squadron in the world.

The Red Rippers fly the F8U-1 "Crusader" which is manufactured by Chance Vought. The plane is classified as a day superiority intercept fighter and in 1958 was the Navy's fastest aircraft with a speed in excess of 1000 mph. The armament of the aircraft consists of four 20mm guns and provisions to carry two sidewinder air-to-air missiles. A rocket pack is built into the bottom of the fuselage but is no longer utilized.

Present VF-11 aviation training includes broadcast and ground controlled intercepts, twenty and thirty thousand foot gunnery, requalification in carrier landings, night and instrument flying, and fighter tactics.

Although VF-11 deployed on 15 February aboard the USS Franklin D. Roosevelt, they have been temporarily based ashore at Naval Station Rota, Spain since 22 February.

1 APR 61 - 17 AUG 61 During this period while aboard N.S. Rota, Spain, Fighter Squadron ELEVEN participated in extensive training exercises. Through these exercises the squadron was the only F8U squadron in COMNAVAIRLANT to qualify 100% of all its aviators in all aspects of the squadron missions. The qualifications were in the following events: 20 thousand foot gunnery, 30 thousand foot gunnery, 45 thousand foot camera gunnery, Dart gunnery, Sidewinder intercepts and Broadcast Control Intercepts. In obtaining these qualifications squadron aviators were awarded 42 Navy "E"'s. These qualifications were during fiscal 1961.

While based aboard N.S. Rota squadron activity was devoted to extensive training necessary to achieve above record.

Since return to CONUS squadron has been actively engaged in air-to-air tactics and FCLP prior to carrier requalification aboard USS SARATOGA.

On Saturday, 18 November, USS ROOSEVELT with Carrier Air Group ONE aboard tied up at Naval Station, Mayport after a one week carrier qualification cruise. VF-11 aircraft were offloaded and flown back to NAS Cecil Field. All VF-11 gear was loaded on vans, transported to Cecil Field, and stowed. Most of the VF-11 personnel were secured and had gone "to the winds". Two hours later Carrier Air Group ONE was alerted and ordered to report immediately to Naval Station, Mayport to board the USS ROOSEVELT for a classified special mission. Within four hours all VF-11 gear, 95% of the personnel and the squadron aircraft made the move from NAS Cecil Field to Naval Station, Mayport. (See attached sheet)

ITEM 7 (Cont'd)

This is believed to be a record for squadron size and distance mowed. The squadron did have a marked advantage, though, in that all gear was still packed.

The special mission was a policing action in the Dominican Republic. The USS ROOSEVELT made its presence known in waters South of Santo Domingo from the 21st through the 29th of November.

ITEM 9

Early October of 1961 found the "RED RIPPERS" flying tactics hops and practicing field carrier landings. On 5 and 6 October the entire squadron requalified in day arrested landing aboard the USS SARATOGA (CVA-60). On 16 October the squadron deployed on a one week cruise aboard the USS ROOSEVELT (CVA-42) in company with the other squadrons of Carrier Air Group ONE for fleet exercises. While returning from one of these exercises LTJG [REDACTED] landed hard on a slightly pitching deck. Upon touchdown the aircraft's starboard wheel sheared. There were two explosions followed by fire on the starboard side of the aircraft. The aircraft had engaged number one cross pendant but the hook was torn away from the airframe and the aircraft continued up the angled deck on fire. LTJG [REDACTED] decided to eject and did so as the aircraft neared the elevators edge. LTJG [REDACTED] was clear of the aircraft at an estimated altitude of 45 feet above the water. The main chute blossomed just prior to [REDACTED]'s impact with the water. LTJG [REDACTED] was returned by helo to the ship with no injuries. The photographic coverage of this incident made national media.

The last week of October and the first half of November 1961 was spent shooting gunnery. On 13 November 1961 the squadron again went aboard the USS ROOSEVELT for a one week cruise. Also along on the short operation were 200 senior officers from the Armed Forces Staff College. An excellent air power demonstration was provided for them by the entire air group.

Only four hours after the squadron's return to Cecil Field on 18 November, orders were received to report back to the ship immediately. The next day the USS ROOSEVELT left Mayport pier for Caribbean waters.

During the next twelve days USS ROOSEVELT showed the American flag just South of the Dominican Republic. VF-11 realized limited operations off the ship during this period. All squadron pilots at least viewed this small trouble filled country although no flights closer than 15 miles to land were flown.

On 5 January 1962, Commander LOFTIN and seven other VF-11 pilots flew to Dallas, Texas, to pay a visit to the Chance Vought Aeronautics Corporation. This proven aircraft company was soon to provide VF-11 with twelve new F8U-2NE's. An excellent series of lectures on the aircraft and a tour of the plant were provided the "RED RIPPERS". Due to a temporary structural weakness of the F8U-1 gun mounts, the gunnery program was postponed and January training was concentrated on Broadcast and Ground controlled intercepts. On January 26th a "RED RIPPER" Jamboree was held at the NAS Cecil Field Officers' Recreational Facility. The reunion of past and present "RED RIPPER" officers was most successful. On 1 February 1962 the squadron celebrated the 35th anniversary of "RED RIPPER" existence.

Four "RED RIPPERS", LCDR [REDACTED], LT [REDACTED], LT [REDACTED] and CAPT [REDACTED], USAF made arrested landings aboard the USS ENTER PRIZE, the worlds first nuclear carrier on 5 February.

8 February saw the first of 12 new F8U-2NE's delivered to VF-11. Transition training progressed at a fast rate with more new aircraft coming in each week.

In March 1962 all pilots became fully qualified with the new super Crusader and its outstanding radar.

Much was accomplished in this fast moving month. In mid March field carrier landing practice was commenced and during late March all VF-11 pilots qualified in carrier landing with the new F8U-2NE 's aboard the USS FORRESTAL (CVA-59). Over 600 hours of flight time were logged by the squadron during March.

The summer period covered by this report found Fighter Squadron ELEVEN primarily engaged in radar intercept training. The majority of flights logged in Part Four, Block 2 had a mission of either Broadcast or Ground Controlled Intercepts. Both missions give maximum pilot training with the F8U-2NE's excellent 30 mile range radar. Other training included air to air gunnery, camera gunnery, inflight refueling, instrument work and carrier landing practice.

As evidenced by the information in Part I, Block 6, a good deal of this period was spent aboard USS F. D. ROOSEVELT on comparatively short ship-air group training cruises. The 20 April - 18 May cruise was also an orientation cruise for the Joint Chiefs of Staff and various VIP groups. The Red Rippers participated in all air group aerial demonstrations.

Visits during the cruises were made to Norfolk, Virginia 11-14 May and NAS Leward Point, Guantanamo Bay Cuba, 29 July - 3 August 1962.

From 1 DEC 1963 to 6 DEC 1963 four Red Ripper aircraft and pilots augmented Carrier Air Group THREE on board the USS SARATOGA. On 22 January 1964 the entire squadron deployed to Guantanamo Bay, Cuba for a shake-down cruise on board the USS Franklin D. ROOSEVELT (CVA-42). The last week of this cruise was spent in Air to Air missile exercises near ROOSEVELT ROADS, PUERTO RICO. The squadron returned to Cecil Field on 8 March 1964 and the remaining days of March were spent preparing for a Mediterranean deployment as part of CARRIER AIR WING ONE.

Upon squadron deployment to the Mediterranean on board the USS Franklin D. ROOSEVELT (CVA-42), two squadron aircraft were flown Trans-Atlantic from NAS, Cecil Field, Florida, to NAS Rota, Spain. The two aircraft piloted by LCDR. [REDACTED] and LT. [REDACTED] were then landed aboard the ROOSEVELT as she completed her much slower crossing of the Atlantic Ocean and neared the Mediterranean Sea.

The USS Franklin D. ROOSEVELT (CVA-42) won the ADMIRAL FLATLEY MEMORIAL AWARD for fiscal year 1964. All Fighter Squadron ELEVEN pilots, ground Maintenance Officers, and Maintenance Personnel made an important contribution toward winning this recognition for Aviation Safety.

The month of April was consumed with last minute preparations for the forthcoming deployment to the Mediterranean Sea. Cruise boxes, aircraft, and personnel were loaded aboard the USS Franklin D. ROOSEVELT (CVA-42) during the weekend of 23-26 April and the eight month cruise was begun on 28 April 1964.

A team of NBC Photographers was on hand during the furor of Pre-Deployment preparations and the first few weeks of the cruise. The result of their work was a DUPONT SHOW OF THE WEEK entitled "FLIGHT DECK" which was nationally televised in June and again in August. Fighter Squadron ELEVEN, its aircraft, pilots, and Flight Deck Maintenance Personnel were afforded more than ample coverage in this much praised film.

While in the Mediterranean the squadron participated in FAIRGAME II, a joint exercise with France, and FALLEX 64, a NATO exercise involving many countries of the North Atlantic Treaty organization. Visits during the cruise were made to Palma, Majorca, Spain; Barcelona, Spain; Naples, Italy; Valetta, Malta; Athens, Greece; Taranto, Italy; Messina, Sicily; Rhodes, Greece; and Cannes, France.
