From: Commanding Officer, Fleet Composite Squadron TWELVE  
To: Chief of Naval Operations (OP-0502)

Subj: Command History (Report Symbol OPNAV Report 5750-1)

Ref: (a) OPNAVINST 5750.12B

Encl: (1) Documentary Annex

1. In accordance with reference (a), the following report is submitted:

a. Basic History.

(1) Command Organization - Fleet Composite Squadron TWELVE was commissioned on 1 September 1973 at NAF Detroit, Mt. Clemens, Michigan as the first Reserve Fleet Composite Squadron in Naval History.

(a) Commanding Officers

CDR D. L. KORN	SEP 73 - MAR 75
CDR D. A. GREGG	MAR 75 - MAR 77

(b) Missions and Functions have not changed since previous submittal.

(c) Composition of Command - VC-12 has recently transitioned to the TA-4J aircraft from the A-4L. The command currently operates and maintains nine (9) TA-4J's. Personnel assets consist of 17 officers and 117 enlisted.

(d) The location of the command has not changed since the previous submittal.

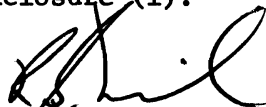

(2) Summary of Operations - During the past year VC-12 has successfully completed a safe and orderly transition to the TA-4J aircraft. This necessitated a substantial training effort, both for pilots and maintenance personnel. The command has been tasked additionally with providing increased dissimilar air combat training and other services to Fleet Reserve and Fleet fighter squadrons. As evidenced by the Documentary Annex Operations Summaries the command has successfully provided a variety of support services in different locations. These services have included radar tracking, TDU towing, air intercept control, dissimilar air combat maneuvering, air refueling, and banner tow/escort. Major detachments have been made to NAS Jacksonville, NAS Key West, and Homestead AFB. In addition to these services the command has placed increased emphasis on missions which develop pilot skills and

16:ms  
5750

Subj: Command History (Report Symbol OPNAV Report 5750-1)

abilities. This has been accomplished within the framework of safety and professionalism.

b. Documentary Annexes. See Enclosure (1).
