VC-13 SQUADRON HISTORY

Fleet Composite Squadron THIRTEEN (VC-13) was commissioned at New Orleans on 1 September 1973. Initially VC-13 operated the F-8H Crusader with a complement of 17 officers and 127 enlisted men, former members of the two decommissioned New Orleans Anti-Submarine Fighter Squadrons, VSF-76 and VSF-86. In April 1974, the squadron transitioned to the single-seat A4L Skyhawk. As the demand for the services of VC-13 increased, the squadron began operating more detachments on the West Coast. Finally, in February 1976, VC-13 was permanently assigned NAS Miramar. During the Summer and Fall of 1976, the squadron transitioned to the TA4J Skyhawk, significantly increasing its support capabilities.

The "Fighting Saints" of VC-13 provide the finest, most varied airborne services available to surface and air units of the U. S. Armed Forces. In addition to the traditional target presentation mission flown by other composite squadrons, VC-13, utilizing the work horse A-4 "Skyhawk" series aircraft, provides realistic hands-on-hardware air combat readiness practice for units as diverse as the CNO AEGIS Project, the U. S. Navy and Air Force Fighter Weapons School, Fighter Squadrons of the Navy, Marine Corps and Air Force, as well as countless ship and shore units from coast to coast and Canada. VC-13, has provided these services in a timely and professional manner and has flown accident free since its commissioning in 1973.

Fleet Composite Squadron THIRTEEN is currently commanded by CDR Michael R. Scott and has a complement of 18 officers, 190 enlisted and 12 TA4J Skyhawks.

VC-13 SQUADRON HISTORY

Fleet Composite Squadron THIRTEEN (VC-13) was commissioned at New Orleans on 1 September 1973. Initially VC-13 operated the F-8H Crusader with a complement of 17 officers and 127 enlisted men, former members of the two decommissioned New Orleans Anti-Submarine Fighter Squadrons, VSF-76 and VSF-86. In April 1974, the squadron transitioned to the single-seat A4L Skyhawk. As the demand for the services of VC-13 increased, the squadron began operating more detachments on the West Coast. Finally, in February 1976, VC-13 was permanently assigned NAS Miramar. During the Summer and Fall of 1976, the squadron transitioned to the TA4J Skyhawk, significantly increasing its support capabilities.

The "Fighting Saints" of VC-13 provide the finest, most varied airborne services available to surface and air units of the U. S. Armed Forces. In addition to the traditional target presentation mission flown by other composite squadrons, VC-13, utilizing the work horse A-4 "Skyhawk" series aircraft, provides realistic hands-on-hardware air combat readiness practice for units as diverse as the CNO AEGIS Project, the U. S. Navy and Air Force Fighter Weapons School, Fighter Squadrons of the Navy, Marine Corps and Air Force, as well as countless ship and shore units from coast to coast and Canada. VC-13, has provided these services in a timely and professional manner and has flown accident free since its commissioning in 1973.

Fleet Composite Squadron THIRTEEN is currently commanded by CDR Michael R. SCOTT and has a complement of 18 officers and 190 enlisted and 12 TA4J Skyhawks.
