1. Enclosure (1) is forwarded in accordance with reference (a).

D. R. ANDERSON

USS ALBANY (SSN 753) Command History for Calendar Year 1990

1. Command Composition and Organization:

a. Mission:

(1) USS ALBANY (SSN 753), the 43rd ship of the Los Angeles Class, is the Navy's newest nuclear powered attack submarine. It is the most advanced undersea vessel of its type in the world. Its mission is to seek out and destroy enemy surface ships and submarines and to protect our own naval interest.

(2) The 360 foot, 6900 ton ship is well equipped to accomplish this task. Faster than her predecessors and equipped with highly accurate sensors and weapons control systems, it is armed with sophisticated MK 48 anti-submarine torpedoes and harpoon and tomahawk cruise missiles. In the future, ALBANY will also be able to vertically launch tomahawk cruise missiles. Twelve vertical tubes in the bow provide this future capability. ALBANY carries a crew of 133 (13 officers and 120 enlisted men), all specialists in their respective fields.

b. Organizational Structure:

(1) Immediate Senior Commands:

Secretary of the Navy - H. Lawrence Garrett, III
Chief of Naval Operations - ADM Frank B. Kelso, II
Commander in Chief, U. S. Atlantic Fleet - ADM Powell F. Carter, Jr.
Assistant CNO (Undersea Warfare) - VADM Daniel L. Cooper
Commander Submarine Force, U. S. Atlantic Fleet - VADM Roger F. Bacon
Commander, Submarine Group SIX - RADM Thomas A. Meinicke
Commander, Submarine Squadron EIGHT - CAPT Joseph J. Krol
Commanding Officer, USS ALBANY (SSN 753) - CDR Darl R. Anderson

(2) Permanent Duty Station: Norfolk, Virginia.
