USS AVENGER (MCM-1)

Command Composition and Organization

a. Mission: Conduct Countermeasures against moored and bottom mines. Conduct independent mine warfare operations and participate in coordinated mine warfare operations with various Naval forces. AVENGER's primary missions are: Mine Warfare (MIW), Mobility (MOB), and Command, Control, and Communications (CCC). Secondary missions are: Intelligence (INT), Fleet Support Operations (FSO), and Non-Combat Operations (NCO).

b. Immediate Superior in Command: Commander, Mine Counter Measure Squadron Three, Ingleside, Texas.

c. Command Organization (as of 31 December 1994):

- (1) Commanding Officer: CDR John C. Piper, USNR
- (2) Executive Officer: LCDR James P. Steele, III, USN
- (3) Chief Engineer: LT [REDACTED], USN
- (4) Operations Officer: LT [REDACTED], USN
- (5) Supply Officer: LTJG [REDACTED], USN
- (6) Electrical Officer: LTJG [REDACTED], USN
- (7) Combat Information Officer: ENS [REDACTED], USN
- (8) Damage Control Assistant: ENS [REDACTED], USN
- (9) First Lieutenant: ENS [REDACTED], USN

d. Homeport: Naval Station Ingleside, Texas

e. Statistical Data:

- (1) Current ship's manning: 9 Officers, 76 Enlisted

Length:	224 feet	Draft (Navigation):	15 feet
Beam:	39 feet	Displacement:	1340 tons
Speed:	13.5 knots	Accommodations:	8 Officer 5 CPO
Draft (keel):	12.2 feet		70 Enlisted

Encl (1)

Propulsion:

Four Waukesha LN 1616 DSIN modified diesel engines
Two Controllable reversible pitch propellers
Two rudders
Two Electric light load propulsion motors

Auxiliary:

Three Waukesha LN 1616 DSIN modified ship's service diesel generators

One Solar Gas turbine DC generator
One Omnithruster bow thruster

Sensors/Navigation Systems:

One AN/SPS-55 surface search radar
One Furuno navigation radar
One AN/SSN-2(V) Phase III Precise Integrated Navigation System
One AN/SQQ-32 Advanced Minehunting sonar set
One AN/WQN-1 Channel Finder

Mine Countermeasures system:

One AN/SLQ-48 Mine neutralization system
Size 1 Oropesa Type mechanical minesweep equipment
AN/SLQ-37(V)3 magnetic/acoustic influence sweep equipment

15-19	DEC	Enroute Ingleside Texas
20-31	DEC	Inport Ingleside Texas for Holiday Leave and Standown

USS AVENGER (MCM-1)

Narrative

Degaussing Operations were conducted in late January in preparation for MCMREFTRA scheduled for the Spring of 1994.

Change of Command: CDR M.J. O'Moore, USN relieved LCDR T.C. RYAN, USN, on February 18th 1994. CDR O' Moore reported from COMCMRON THREE as Chief Staff Officer. LCDR T.C. Ryan received orders to Commander, United States Naval Forces, Chinhaea Korea.

Inspections of all seven diesel engines resulted in the cancellation of MCMREFTRA and decertification of the engineering propulsion plant.

Change of Command: LCDR J.C. Piper, USNR, relieved CDR M.J. O'Moore, USN on 03 May 1994.

AVENGER completed the first ever regularly scheduled Underway Material Inspection by Board of Inspection and Survey for a MCM vessel 23-27 May 1994.

A four month maintenance availability began in June of 1994 and ended in late September 1994 by Peterson Builders Incorporated. The work package included repairs to the fuel tanks, various ship alts, and new weather decks being laid.

The Light Off Examination (LOE) conducted by the Propulsion Examination Board (PEB) resulted in the certification of AVENGER's engineering plant.

During the fall and winter of 1994, ship prepared for upcoming Operational Propulsion Plant Examination (OPPE) scheduled for February of 1995. Various ETG visits assisted in the preparation for the inspection.
