21MAR02 - 29APR02	DRYDOCK IN ARCO (ARDM-5), SAN DIEGO

## NARRATIVE

USS BREMERTON has had an eventful year, from start to finish. The ship started the year with a short underway with ADM A. H. Knetzni, Commander of Submarines, Pacific Fleet. The ship then enjoyed a quality of life port visit in San Francisco at the beginning of February.

After an upkeep in March, BREMERTON started the Pre-Overseas Movement Certification process, and left for a six-month Western Pacific deployment in June.

During the deployment, BREMERTON conducted two missions vital to national security and participated in two multi-national exercises. The first exercise, MULTI-SAIL was a joint exercise with the Japanese Defense Force (JDF) during which BREMERTON assisted both U.S. and JDF surface ships in identifying and tracking submarines. The second exercise, ANNUALEX was also a joint exercise with the JDF and consisted of an end of training cycle naval proficiency display.

Upon returning to San Diego, the ship conducted an Operational Reactor Safeguards Examination on December 3rd and 4th. After the deployment, BREMERTON finished the year with a post-deployment and holiday stand-down.

After returning from stand-down in January, BREMERTON successfully completed a Nuclear Weapons Acceptance Inspection, and proceeded to Bangor, Washington to load an exercise TLAM-N and conduct a successful QAST-TLAM-N Launch in March. During the remainder of March until June 2002, BREMERTON conducted an interdeployment drydocking for numerous maintenance items including a dual media resin discharge and shaft repair.
