SIPR:

CELL:

Mailing Address:

COMMANDING OFFICER USS CHINOOK (PC 9)

FPO AE 09566-1968

COMMANDER'S ASSESSMENT

When protecting the high seas the stakes are high. Comprehensive Strategic Military Planning to disrupt, dismantle, and eventually eliminate piracy, drug and human trafficking have been laid out. USS CHINOOK (PC 9) plays a key role in this plan by maintaining a forward presence during maritime patrols while maintaining positive relationships with foreign Navies and merchants. Stability of the seas surrounding the middle-east is an imperative; if pirates and traffickers are not stopped / deterred the Middle East will again become a place of terrorism, with obvious implications. With that premise USS CHINOOK (PC 9) has accepted the challenge and will continue to promote the strategy to achieve peace and stability on Middle Eastern high seas. It has been my greatest pleasure serving with the distinguished men of USS CHINOOK (PC 9) and I look forward to an even better 2014.

CHRONOLOGY and NARRATIVE

01 JAN - 21 JAN	In port Bahrain for crew maintenance and training
22 JAN - 23 JAN	Underway for Pilot exemption and JADEX

USS CHINOOK (PC 9) 2013 HISTORICAL NARRATIVE

USS CHINOOK has had a busy and successful year. After a four month DPMA, where she received a Navigation upgrade and overhaul of both ship service diesel generators and several other repairs. CHINOOK's crew successfully completed a light off assessment with a 94.6%, shattering the class average. CHINOOK quickly qualified for full operation and began CTF 55/152 tasking, which included several escort missions through the Strait of Hormuz and Maritime interdiction Operations. Providing a continued presence on the high seas to deter / prevent smuggling / piracy and promoting friendly interactions. CHINOOK also successfully completed a CMAV and CV to support maintaining material and personnel readiness. The crew of CHINOOK takes pride in their training and successful completion of missions. We look forward to an even better year in 2014.
