2. Commander Assessment:

a. CHUNG-HOON is a multi-mission platform specifically designed for Anti-Submarine Warfare, Surface Warfare, and Air Defense tasking. With multiple advanced weapon systems, CHUNG-HOON must rely on her highly skilled crew for proper execution. Throughout the course of the year, CHUNG-HOON has reestablished herself as a tactically proficient war-fighter. She began 2015 in the middle of her Basic Phase and certified in all warfare areas including Engineering, Seamanship and Navigation, Air Warfare, Undersea Warfare, and Surface Warfare with noteworthy scores. Amidst her certification process she partook in exercises with the JOHN C. STENNIS Strike Group and quickly established herself as an adept warship and the premier submarine-hunter of the Pacific Fleet.

4. Narrative:

a. CHUNG-HOON began 2015 in the Basic Phase where she completed all warfare certifications, notably receiving scores of 96 for 3M Certification, 97 during MOB-E 1.4 EOC, and 97 for Air Warfare 2.4A Live Fire.

b. Limited to only one week in port in the two months leading up to TMI, CHUNG-HOON's crew transitioned from war fighting during COMPTUEX and JTFEX to preparing the ship for inspection on her transit home. Although the truncated preparation time was unfavorable, CHUNG-HOON was not deterred from completing her mission. Through hard work and perseverance she received a score TMI score of 69.

c. Armed with the desire for perfection and a list of discrepancies from TMI, her crew got to work. To the surprise of no one, CHUNG-HOON received a final INSURV score of 84, slightly above the fleet average. Operations, Undersea Warfare, Weapons Systems, Information Systems categories were initially assessed as Yellow during TMI; however, all received above average score during INSURV.

d. Despite CHUNG-HOON's challenging schedule and unwavering deadlines, the plethora of certifications, exercises, underways, and inspections, CHUNG-HOON persevered. 2015 has tested CHUNG-HOON and her crew time and time again, making for a stronger and more proficient warship prepared for tasking and ready for her SEVENTH Fleet deployment in early 2016.

e. CHUNG-HOON's emphasis on drilling and studying allowed for the advancement of 35 percent of eligible sailors during the spring and fall cycles. Her percentage of personnel to advance to E-4 and E-5, 64.6 and 33.3, respectively, were well above the Fleet averages of 32.3 and 18.65, respectively. Additionally, CHUNG-HOON advanced 6 Chief Petty Officers and 2 Senior Chief Petty Officers. CHUNG-HOON was also selected for Command Retention Excellence Award 2015 for meeting the U.S. Navy standards for retention. Her performance in advancement of personnel speaks volumes to the ship's high regard of quality training and warfare readiness, while her high retention rate speaks volumes to the ship's morale.

f. CHUNG-HOON not only seeks excellence in the fight but also takes pride in all tasks set before her and in increasing the morale of her crew. CHUNG-HOON stresses the importance of strengthening family and crew unity. This was exemplified during FY 2015 when CHUNG-HOON afforded friends and family members two ship-wide visits in the form of a Tiger Cruise to the Big Island of Hawaii and a Friends and Family Day Cruise. On 10 December 2015, the Mayor of Honolulu declared that day CHUNG-HOON DAY which further showcases CHUNG-HOON's history and community impact. Furthermore, CHUNG-HOON won the Pearl Harbor Hawaii 2015 Holiday Festival of Lights Competition, further demonstrating the hard work and pride that goes into everything that she seeks to accomplish.
