Commander Submarine Development Group One
USS DOLPHIN (AGSS 555)

Commanding Officer

Lieutenant Commander John E. Inman

Homeport

USS DOLPHIN (AGSS 555) is homeported at Mare Island Naval Shipyard, Vallejo, CA

Chronology

January - July	Regular Overhaul, Mare Island Naval Shipyard, Vallejo, CA
August	Regular Overhaul continued 25th Commissioning Anniversary
September - December	Regular Overhaul continued

1993 was spent in Regular Overhaul at Mare Island Naval Shipyard, Vallejo, CA; an overhaul which began in June 1992.

However, one significant event did occur during the year. on the 17th of August, DOLPHIN celebrated the 25th anniversary of its commissioning. This event marked DOLPHIN not only as one of the most mature ships in the fleet but also as the sole remaining diesel electric powered submarine in the U. S. Submarine Force.

The remainder of the year was spent continuing the overhaul.
