COMMAND COMPOSITION AND ORGANIZATION

I. Mission of USS DWIGHT D. EISENHOWER (CVN 69)

The mission is to provide sea-based tactical air power for the defense of America's right to freedom of the sea as well as the protection of United States sovereignty. As part of this mission, IKE is capable of projecting tactical air power over sea and land, as well as providing tactical air defense, anti-submarine and anti-surface capabilities.

II. Background

Named after the 34th president of the United States, USS DWIGHT D. EISENHOWER (CVN 69) is the third nuclear-powered aircraft carrier ever built. Originally named Eisenhower on February 21, 1970, the ship was renamed DWIGHT D. EISENHOWER on May 25, 1970.

The keel of the ship (designated hull 599 by Newport News Shipbuilding and Drydock Company) was laid on Aug. 15, 1970, and was authenticated by the late president's grandson, D. David Eisenhower II. Five years later, on Oct. 11, 1975, Mrs. Mamie Doud Eisenhower, widow of the former president and the ship's sponsor, christened the ship during launching ceremonies at Newport News Shipbuilding and Drydock Company.

USS DWIGHT D. EISENHOWER (CVN 69) was commissioned Oct. 18, 1977 at Pier 12, Naval Station, Norfolk VA.
