USS GEORGE WASHINGTON (CVN 73) COMMAND HISTORY 1995

COMMAND COMPOSITION AND ORGANIZATION

USS GEORGE WASHINGTON (CVN 73), sixth of the NIMITZ-class nuclear-powered aircraft carriers, was commissioned on July 4, 1992 at Naval Station Norfolk, Virginia. Home ported at Norfolk, she is an asset of Commander Naval Air Force, U.S. Atlantic Fleet, under Vice Admiral Richard C. Allen and an operational unit of the Second Fleet under VADM Jay Johnson.

Commanded by Captain Malcolm P. Branch, GEORGE WASHINGTON is tasked with numerous missions, the primary one being to conduct sustained combat air operations. In this role, the ship serves as the flagship for Commander, George Washington Battle Group commanded by Rear Admiral Henry C. Giffin, who relieved RADM Alexander J. Krekich in March 1995.

GEORGE WASHINGTON's embarked air wing, Carrier Air Wing SEVEN, is commanded by Captain Ronald D. McElraft. The air wing's task is to conduct sustained offensive air operations against land, surface and subsurface targets and to defend the battle group in support of assigned missions.

The air wing employs 75 aircraft including: the F-14B Tomcat fighter flown by the Dogs of VF 143; the F/A-18C Hornet strike-fighter operated by the Wildcats of VFA 131 and the Knighthawks of VFA 136; the A-6E Intruder medium attack aircraft flown by the Blue Blasters of VA 34; the EA-6B Prowler electronic warfare aircraft flown by the Patriots of VAQ 140; the S-3B Viking anti-submarine warfare aircraft flown by the Topcats of VS 31; the E-2C Hawkeye airborne early warning aircraft flown by the Bluetails of VAW 121; the ES-3B Raven flown by the Black Ravens of VQ 6; and the HH-60/SH-60F helicopter flown by the Night Dippers of HS 5. The tailcode for Carrier Air Wing SEVEN is "Alfa Golf."

Additionally, GEORGE WASHINGTON serves as the base of operations for Commander, Destroyer Squadron TWENTY SIX while at sea, and has served as a platform for joint operations with Army and Marine Corps aviation and ground units as part of the deployment work up cycle.

NARRATIVE

January 1, 1995 found USS GEORGE WASHINGTON (CVN 73) pierside at its homeport of Naval Station Norfolk, Virginia. During the year, two events were focal points for the ship. First was a Selected Restricted Availability at the Norfolk Naval Shipyard, Portsmouth, Va. and successfully completing work-ups for deployment in January 1996.

On January 6, the GEORGE WASHINGTON departed NAVSTA for NNSY to conduct a three month SRA. While in the shipyard, extensive upgrades and modifications were made to the ship's engineering spaces, communications capabilities and living spaces. After successfully completing the yard period, GEORGE WASHINGTON was underway April 7-12 for sea trials.

April 20 saw the changing of the guard aboard GEORGE WASHINGTON when CAPT Malcolm P. Branch relieved CAPT Robert G. Sprigg to become the third Commanding Officer of the "Spirit of Freedom". Nearly 2,000 Sailors and guests were in attendance at the ceremony with Chief of Naval Operations, ADM Mike Boorda as the guest speaker. CAPT Branch had served previously as the ship's commissioning Executive Officer.

During the underway period from May 11-19, GEORGE WASHINGTON conducted another first for the ship. During the first week, VMFA 142 became the first reserve Marine attack fighter squadron to qualify as a deployable unit of a carrier air wing. Four F/A-18s, 10 pilots and 20 enlisted Marines from the squadron were aboard to conduct carrier qualifications.

On July 4, GEORGE WASHINGTON celebrated its third birthday. A small ceremony hosted by CAPT and Mrs. Branch was held in Hangar Bay 2. The ceremony included cake cutting with the youngest and oldest crew members, AN [REDACTED] and senior medical officer CDR [REDACTED]. Following the ceremony, the ship opened its doors to the public for general visiting hosting 2,774 visitors.

A "Passing of the Badge" ceremony was conducted August 4 on GEORGE WASHINGTON's flight deck as AFCM(AW) Jesse J. Elliott relieved ABCM(AW) Douglas Ausderau as the ship's Command Master Chief. Elliott is the ship's third CMC.

On August 14, GEORGE WASHINGTON was honored by a visit from former President George Bush and First Lady Barbara Bush. This was the second visit to the "Spirit of Freedom" for Bush. The previous visit was on July 21, 1990 when the former first couple participated in the ship's christening at Newport News Shipbuilding. While aboard ship, the former first couple had a chance to visit one-on-one with GW Sailors and dine with them on the Mess Decks. Before departing, the Bush's also addressed the crew in a packed hangar bay. Mrs. Bush, the ship's sponsor, left the crew with the following statement saying, "You are the peace makers and the peace keepers...God bless you all."

Another significant milestone for the ship during August, was the establishment of Supply Department's S-7 Division. This new 12-Sailor division represents the evolution of an on board hazardous material waste and control program that places top priority on the Navy's goal of safeguarding the environment. The establishment of this new division was a move to further consolidate the control of hazardous material aboard GEORGE WASHINGTON.

On September 21, GEORGE WASHINGTON got underway for its TSTA III/FEP training phase in preparation for the ship's COMPTUEX. Fleet Training Group was aboard for the nine day TSTA III/FEP to assess the ship's overall readiness to conduct training and to evaluate the ship's various training teams ability to effectively train the crew. FTG found well-established training teams with a highly motivated crew earning the ship an overwhelming passing grade to continue with its preparations for deployment.

With COMCARGRU FOUR embarked, GEORE WASHINGTON rolled right in to its COMPUTEX a graded evaluation period. The ship and embarked air wing, Carrier Air Wing SEVEN, conducted several exercises in the Puerto Rican OPAREA and made a port visit to Ponce, PR. Following additional training and a brief port visit to Norfolk, VA., GEORGE WASHINGTON embarked its own battle group, COMCRUDESGRU 2, and completed its extensive six-week training period.

On November 29, GEORGE WASHINGTON got underway for its final graded training evolution prior to its deployment in January 1996. During this three-week training period, the "Spirit of Freedom" had the opportunity to train with every branch of the U.S. Armed Forces and foreign services in simulated hostile scenarios. Training was conducted in ASW, AAW, Mine Countermeasures, Maritime Interdiction and Non-combatant Evacuation Operations. Joint Task Force Exercise (JTFEX) 96-1 afforded the George Washington Battle Group an opportunity to train for possible real world contingencies. The end result was a well prepared battle group certified to deploy in support of national authority requirements.
