PART III: NARRATIVE

Refit 50/Patrol 49 began with an exchange of command from the Blue Crew on 09 September 1998. Throughout the rigorous, six-week refit period, numerous groups visited GEORGIA while in port Bangor, Washington. Groups toured are as follows (attendees in parentheses):

Retired Canadian Airline Employees (25)
University of Washington NROTC Battalion (74)
Seventh Day Adventists (34)
Boy Scout Troop #422 (35)
City of Poulsbo Recreational Seniors (32)
City of Leavenworth Rotary Club (30)

On 25 October 1998, GEORGIA completed Refit 50 and was underway from Submarine Base Bangor for Patrol 49 to conduct Refresher Training. Upon completion of Refresher Training, GEORGIA proceeded to the alert operational areas. Upon release from strategic duties, GEORGIA participated in Extended Echo Ranging exercises with COMPATWING TEN's P-3s out of NAS Whidbey Island. Following the Extended Echo Ranging exercises, GEORGIA embarked the Inspection and Survey Board to conduct an Underway Material Inspection (UMI) followed by a brief inport period.

Upon completion of the UMI/INSURV, GEORGIA commenced a transit to alert operational areas, but a radar mast failure required a return to SUBASE Bangor from 16-18 November 1998. Following the emergent radar mast repair, GEORGIA proceeded to alert operational areas.

On 17-19 December 1998, upon release from strategic duties, an Operational Reactor Safeguards Examination and a Submarine Squadron 17 Focused Logistics Training were successfully conducted.

On 19 December 1998, GEORGIA returned to Bangor, Washington for the holiday season. On 22 December 1998, GEORGIA embarked approximately 90 of the crew's dependents for a one day Dependents' Cruise conducted in local waters. Patrol 49 ended with an exchange of command to the Blue Crew on 03 January 1999.
