COMMAND NARRATIVE

USS JOHN PAUL JONES (DDG 53)

01 JANUARY 1995 to 31 DECEMBER 1995

* As part of the ABRAHAM LINCOLN Battle Group, JOHN PAUL JONES participated in FLEETEX 95-1A/B and JTFEX 95-1 with the ship achieving three more successful missile shots. The ship was now fully ready for deployment in the spring of 1995.

* In February 1995, JOHN PAUL JONES scaled the last hurdle in the pursuit of its first Battle Efficiency Award by completing the Logistics Management Assessment with resounding success.

* USS JOHN PAUL JONES deployed on 13 April 1995, with the USS LINCOLN, USS PRINCETON, USS MERRILL, USS SACRAMENTO and USS PASADENA. The crew began deployment vigorously, mixing work with play in the form of numerous "Steel Beach" flight deck barbecues. After only a week and a half of transit, the ship suffered a starboard shaft hub seal casualty which obliged JOHN PAUL JONES to undergo an emergency drydock repair in Pearl Harbor, Hawaii. By aiding the shipyard workers, the crew helped effect repairs to the shaft in under two weeks time enabling the ship to rendezvous with the Lincoln Battle Group in Singapore on schedule.

* The ship arrived in the Arabian Gulf on 28 May and departed 9 September 1995, for a total of 105 days. During the time in the gulf, JOHN PAUL JONES visited the following ports:

29 May - 08 Jun Bahrain
18 Jun - 22 Jun Jebel Ali, U.A.E.
30 Jun - 02 Jul Abu Dhabi, U.A.E.
26 Jul - 09 Aug Jebel Ali, U.A.E.
19 Aug - 23 Aug Dubai, U.A.E.
04 Sep - 06 Sep Muscat, Oman

* On 22 June 1995, JOHN PAUL JONES embarked HSL 45 Det Alfa, cross decked from USS INGRAHAM (FFG 61), for use during the ship's participation in a multi-ship USW exercise (SHAREM 110 Phase 2). This event marks the first time a helicopter detachment has been embarked on the Arleigh Burke class destroyer. During seven days of intense USW operations, JOHN PAUL JONES conducted shallow water towed array operations and mine detection exercises, culminating in the successful launching of three exercise torpedoes.

Enclosure (3)

- * On 01 July in Abu Dhabi, U.A.E., the ship competed in basketball against the U.A.E. national team and participated in the 1995 American/Canadian National Days Celebration, providing tours to American embassy staff and the local community.
- * On 16 and 17 July, the ship's Visit Board Search and Seizure (VBSS) team conducted its first two boardings as part of the US Navy's participation in the enforcement of United Nations economic sanctions against Iraq. The team met no resistance and discovered no contraband on neither the MV Nayala nor MV Al Rabia.
- * In late August, as a response to the Iraqi military build-up on the Iraqi-Jordanian border, JOHN PAUL JONES, along with USS MERRILL, escorted eleven military pre-positioning ships through the Strait of Hormuz. The ships included the CPL LEWIS J HAUGE, CAPE HENRY, PFC JAMES ANDERSON JR, CAPE DOUGLAS, CAPE DECISION, CAPE HORN, 1STLT ALEX BONNEYMAN JR, AUSTRAL RAINBOW, 1ST LT BAUGH, PFC ERIC G GIBSON, CAPE WRATH, and the CAPE WASHINGTON.
- * On 6 September, JOHN PAUL JONES departed Muscat, Oman, and after a brief return to the Arabian Gulf, transited the Straits of Hormuz for the last time on 9 September, en route to Pearl Harbor, Hawaii. Arriving in Pearl Harbor on 29 September, the ship completed the longest period of consecutive days underway in ship's history (24 days).
- * On 20 September, JOHN PAUL JONES rescued the two man crew of an F-14 that exploded in mid-air not 500 yards from the ship. The JOHN PAUL JONES' crew was quick to respond having rescue boats in the water within 8 minutes of the accident.
- * While in Hawaii, the ship embarked eighty-seven dependents and relatives for the "Tiger Cruise" back to San Diego. After a week filled with gun exercises and ship maneuvering, USS JOHN PAUL JONES returned to homeport on 9 October 1995, with the success of the first deployment complete.
- * After a post-deployment leave and upkeep period and the Christmas holiday stand-down, the ship currently prepares for the upcoming training cycle prior to the next deployment in the spring of 1997.
