COMMAND COMPOSITION AND ORGANIZATION

MISSION:

The mission of the FFG-7 Class ship is to provide local area protection to underway replenishment groups, amphibious groups, and other military shipping against subsurface, air, and surface threats, as well as air warfare (AW), surface warfare (SUW), and undersea warfare (USW) self-defense. FFG-7 class ships can also contribute to Carrier Battle Group (CVBG) operations and defense.

The addition of the SQQ-89 system to Flight Four FFG-7 class ships, like KAUFFMAN, gives the ship a state of the art advantage to be used against the undersea threat. The twelve MK92 Mod 6 fire control system FFG-7's also have a significant air warfare upgrade that extends their useful combat life well into the 21st century.

**1997 YEAR IN REVIEW
USS KAUFFMAN (FFG 59)**

USS KAUFFMAN (FFG 59) rang in the New Year underway in the Caribbean for Counter-Narcotic Operations, Operation Carib Shield. On the morning of 2 January 97, KAUFFMAN arrived in Cartagena, Columbia for a three-day port visit. In addition to enjoying some well deserved liberty, several members of the crew took time out to paint a local orphanage. The Sailors spent eight hours in a poverty stricken area of Cartagena, painting and doing light carpentry work while brightening the spirits of underprivileged children. The crew delivered numerous boxes of books, toys, clothing, and hygienic supplies provided by Project Handclasp.

After enjoying the port visit, KAUFFMAN was underway to resume duties under the operational control of the Joint Interagency Task Force, East (JIATF-East). After a brief stop for fuel in Guantanamo Bay, Cuba, KAUFFMAN was enroute Mayport, FL for Helicopter Detachment off-load and to embark 25 family members who joined the crew for the transit to Norfolk.

The next month inport was spent preparing for the upcoming Docking Selected Restricted Availability (DSRA). On 24 February, the ship welcomed family members and students from two local elementary schools as KAUFFMAN transited to the Naval Weapons Station in Yorktown for a weapons off-load. On 4 March, KAUFFMAN sailed up the Elizabeth River to Norfolk Shipbuilding and Drydock Company (Norshipco) to

commence the DSRA. From March until mid-June, KAUFFMAN, in addition to hull-cleaning and preservation, received a series of Combat Systems upgrades which greatly enhanced the ship's warfighting capabilities. The changes included an upgraded Air Search radar, improvements to the ship's Fire Control and Electronic Warfare systems, and the first shipboard installation of a Composite Sonar Dome. Additionally, KAUFFMAN participated in a Self-Help project to completely renovate one of the crew berthing compartments. While much of the funding for the project came from a Commander, Naval Surface Forces, Atlantic (COMNAVSURFLANT) initiative, the technical expertise and manpower came entirely from KAUFFMAN.

After successfully completing the Light Off Assessment, KAUFFMAN was underway from Norshipco on 24 June for Sea Trials in the Virginia Capes Operating Area (VCOA) and on 27 June, made her much anticipated return to Norfolk Naval Base. The next two weeks were spent inport preparing for the upcoming Command Assessment of Readiness and Training (CART II) and Aviation Assist Visit. The week of 7 July, KAUFFMAN conducted CART II and was assessed as ready to commence pre-deployment training. After spending the following week with the Aviation Assist Team, KAUFFMAN spent a week underway in the VCOA with USS STUMP (DD 978) for a series of operational tests on R17 and RAIDS integration, one of the combat systems upgrades received during the DSRA. After spending the weekend inport, KAUFFMAN was underway again, this time in support of the Pre-Overseas Movement Certification (POMCERT) for USS NARWHAL (SSN-671) and USS HAMPTON (SSN 767). After

another weekend inport, KAUFFMAN was underway the week of 4 August to begin her Tailored Ship's Training Availability (TSTA I) with Engineering Training Group (ETG). The ship was evaluated in its ability to safely run the engineering plant and to act appropriately in the event of a casualty.

KAUFFMAN returned to port on 8 August for three busy weeks. While successfully completing the Aviation Certification inspection, KAUFFMAN conducted a Logistics and Management Assessment Assist (LMAA) Visit, and the first week of a three week Fleet Maintenance Availability (FMAV). Combat Systems Training Group (CSTG) embarked KAUFFMAN on 18 August for two weeks of training in support of TSTA I. Training was directed at refining the ship's ability to perform basic warfare functions.

Designated a participant for Visit Ship on Labor Day Weekend, KAUFFMAN gave tours to over 700 visitors in three days. After the three day weekend, KAUFFMAN was underway for four days with CSTG for TSTA II, to complete final preparations for the Cruise Missile Tactical Qualification (CMTQ). Having returned to port, KAUFFMAN successfully conducted her CMTQ on 8-9 September, certifying her ability to safely and successfully employ the HARPOON missile.

On 17 September, LCDR Joseph Murach, USNR, relieved LCDR Brian Neuenfeldt, USN, as Executive Officer prior to the ship getting underway for TSTA I with Fleet Training Group (FTG) in the Jacksonville Operating Area. After enjoying a weekend of liberty in Mayport, FL, KAUFFMAN was underway to conduct various

Enclosure (7)

seamanship evolutions including: underway replenishment, precision anchorage, and helicopter operations. After spending a second weekend in Mayport, KAUFFMAN began the last week of FTG's visit with a tow/be towed exercise with USS ROBERT G BRADLEY (FFG-49) and moor to a buoy exercise. The week consisted of more seamanship evolutions, general quarters drills, training in Chemical, Biological, and Radiological defense, and a nighttime underway replenishment. After spending the night of 2 October in Mayport, KAUFFMAN was underway enroute to Norfolk and returned to port the morning of 6 October.

The next two weeks inport were filled with preparations for the upcoming ETG visit and Independent Deployers Exercise (INDEX 98-1) held in the Puerto Rican Operating Area (PROA). The week of 7 October, KAUFFMAN also completed a Naval Surface Fire Support (NSFS) Team Trainer. The ship embarked ETG the week of 20 October underway in the VCOA and completed TSTA II as final preparation for the Engineering Certification. KAUFFMAN was underway from Norfolk 4 November, successfully completed its Engineering Certification, and headed south for the PROA.

The weekend of 8-10 November was spent inport Naval Station, Roosevelt Roads, Puerto Rico (NSRR). Underway in the Southern Puerto Rican Operating Area (SPROA) the following Monday, KAUFFMAN commenced Prospective Commanding Officer Operations (PCO-OPS 4-97) with three days of mini-wars involving USS BRISCOE (DD-977), USS ROBERT G. BRADLEY (FFG-49), USS HAMPTON (SSN-767), and USS NARWHAL (SSN-671). After another night inport NSRR, KAUFFMAN was

Enclosure (7)

underway with BRISCOE and ROBERT G. BRADLEY to conduct exercises for INDEX.

In addition to flight operations with HSL 46 DET 7, KAUFFMAN also completed numerous anti-surface and anti-air gunnery exercises, NSFS exercises, Visit, Board, Search and Seizure evolutions, and a pair of successful anti-air missile engagements. KAUFFMAN then embarked members of Norfolk's Aloat Training Group (ATG) to conduct the Final Evaluation Period enroute Norfolk.

After returning to port 24 November, and enjoying the Thanksgiving Holiday, KAUFFMAN spent the week of 1 Dec preparing for LMA and participating in Surface Warfare Training Week (SWTW). SWTW is a week of competitions varying from sporting events, to rating knowledge, to a chili cookoff and is designed to promote camaraderie within the surface community. KAUFFMAN was awarded overall champion for the week long event. The week of 8 December consisted of the final assessment and hurdle of 1997, the LMA. KAUFFMAN received 95.5 out of a possible 100 points to end the year on a good note. KAUFFMAN spent the next two weeks conducting a Combat Systems Readiness Review and TARGET visit. After the crew enjoyed the annual Christmas Party on 11 December, they welcomed a well-deserved leave and standown period for the holidays.
