Just following the traditional holiday stand-down period, on 13 January the SAIPAN Amphibious Ready Group (SAIPAN ARG) stood up. The SAIPAN ARG, lead by the Commander, Amphibious Squadron FOUR, took on responsibilities for operational control of USS SAIPAN (LHA-2), USS ASHLAND (LPH-4), USS AUSTIN (LPD-41).

On 19 January, USS SAIPAN departed Norfolk Naval Station (NOB) en route to Naval Weapons Station (NWS) Earle, NJ for a weapons on-load that commenced the following day. During its stay at NWS Earle on 21 January, the SAIPAN ARG assumed duties as the Ready Duty ARG. USS SAIPAN completed the weapons on-load in a record 4 days on 25 January. It extended two days inport for weather avoidance, and returned to homeport on 27 January.

On 14 February, Information Technology for the 21st Century installation (which started in November 99) was completed and SOVT signed. The installation consisted of new hardware and software for the Non-Tactical Command Support System II (NTCSS II) in support of SNAP legacy systems SUADPS, OMMS and SNAP Admin. SNAP Admin was replaced by Relational Admin (R-ADM). In addition to its record keeping capabilities (personnel database, PQS qualifications, etc) it also served as the primary server for the ship's SMART.CARD system. Another entity of this major installation was the replacement of the Novell 3.0 Local Area Network with the IT21 Microsoft WINDOWS NT LAN and the installation and configuration of 100 IT21 workstations.

Also in February on the 24th, USS SAIPAN got underway from NOB en route to the Puerto Rican Operating Area (PROA) for a series of evolutions -- CIWS/RAM Missile Shoot, port visit at Naval Station Roosevelt Road (NSRR), Puerto Rico, and the PHIBRON MEU Integration (PMINT) in Cherry Point Operating Area (CPOA). On 29 February, USS SAIPAN conducted a live fire surface-to-air missile exercise at the Puerto Rico AFWTF range. SAIPAN successfully fired two RAM missiles at AFWTF drones, achieving direct hits on both targets. The successful completion of this exercise resulted in SAIPAN receiving an M-1 rating in Air Warfare and confirmed SAIPAN's eligibility for the Maritime Excellence Award.

On 08 March, USS SAIPAN arrived in the CPOA to commence PMINT, and embarked 26th Marine Expeditionary Unit (26 MEU). The arrival of 26 MEU units received coverage from North Carolina news media that came to visit on 11 March.
