1. The Command History of USS WASP (LHD 1) for the year 1992 has been compiled in accordance with reference (a) and is submitted as enclosures (1) through (5).

G. B. MCEWEN

COMMAND COMPOSITION AND ORGANIZATION

1. <u>Mission</u>. USS WASP (LHD 1) is a multi purpose Amphibious Assault Ship whose primary mission is to embark, deploy, support and land elements of a Marine Expeditionary Unit in amphibious assault operations by helicopter, landing craft, assorted amphibious vehicles, V/STOL or any combination of these methods. USS WASP has the secondary mission of Sea Control, utilizing AV-8B Harriers and Attack Helicopters to establish and maintain maritime superiority in a designated geographic area.

2. Chain of Command.

Amphibious Squadron Twelve (Administrative) Amphibious Squadron Two (Operational) Amphibious Group Two Naval Surface Force, U.S. Atlantic Fleet

3. Commanding Officer.

01 Jan 92 - 31 Dec 92 Captain Charles R. Saffell, Jr., USN

- 4. Assigned Aircraft. One (1) UH-1N, BUNO 158763.
- 5. Homeport. U.S. Naval Station, Norfolk, Virginia.

	0757	Anchored G3 Anchorage for ammunition onload.
17DEC	1114	Underway from G3 Anchorage enroute Pier 11S.
	1238	Moored Pier 11S, Naval Station Norfolk, VA.
	1300	Commenced Holiday Leave, Upkeep and Standdown.

NARRATIVE 1992

The beginning of 1992 found WASP in a holiday, leave and upkeep status following her maiden deployment. Most of January was spent preparing WASP for her ammunition offload and pending SRA. In February, WASP got underway and conducted an Ammunition offload in Earle, NJ, followed by a port visit to New York City, where she berthed at the new Naval Station in Staten Island. After conducting local operations in the Virginia Capes, WASP tied up at Norfolk Naval Shipyard and commenced her first SRA.

After spending the latter half of February, all of March and April and the beginning of May pierside, WASP began her workup cycle which was to culminate in her second deployment in support of the U.S. Central Command. May saw WASP conducting sea trials, a limited ammunition onload and the commencement of an eight week cruise to the Caribbean to conduct U.S. Coast Guard Law Enforcement and Counter Drug Operations. Additionally, the first of fifty three midshipmen WASP would host that summer reported aboard for training.

Caribbean operations permitted WASP to operate numerous aircraft again, after a six month absence. These provided exceptional support to the embarked flag (COMPHIBGRU TWO) during the initial phase of the Law Enforcement Operations. Most notably, WASP's state of the art command and control facilities easily detected suspect aircraft, accurately reporting their location, course and speed to DEA authorities. These efforts resulted in the arrest and confiscation of the pilots, their aircraft and cargoes.

During this operations, WASP made successive port calls to Naval Station Roosevelt Roads, Puerto Rico, Cartagena, Colombia and Kingston, Jamaica. Additionally, WASP was flagship to COMPHIBGRU TWO and COMCARGRU SIX and was the site of the annual Senior Military Intelligence Officer's Conference (SMIOC) in mid July. Midshipmen from the Naval Academy and NROTC were able to experience firsthand the underway versatility of the LHD, which filled the role of a Guided Missile Cruiser rather than as an Amphibious Assault Ship. After debarking LANTRAMID I in Roosevelt Roads, seven Midshipmen from LANTRAMID II embarked for the latter phase of the operation, debarking in Roosevelt Roads when WASP passed on flagship duties to USS VIRGINIA in late July and then returned to Norfolk, Virginia.

In early August, WASP was again underway, enroute to Newport, Rhode Island for a routine port visit. While in Newport, the crew and the twenty seven embarked Midshipmen were able to experience firsthand the extensive facilities at the heart of Surface Warfare.

After returning to Norfolk in mid August, WASP steamed up the Elizabeth River to the deperming facility at Craney Island, remaining there three days before returning to the Naval Operating Base.

During the month of September, WASP hosted two very senior military officers. The middle of the month saw the First Sea Lord, Royal Navy tour the ship as a guest of the Commander in Chief, U. S. Atlantic Fleet. At the end of the month, General Colin Powell, Chairman of the Joint Chiefs of Staff, toured WASP to review firsthand, her extensive Command and Control facilities.

October found WASP underway in the Virginia Capes, conducting Amphibious Team Training, Aircraft Dynamic Interface Testing and Surface Ship Radiated Noise Measurements.

In early November, WASP became flagship for COMSECONDFLT and conducted Amphibious Refresher Training off Onslow Bay, North Carolina. Here, WASP was again operating with her Marine Air Combat Element and Marine Expeditionary Unit for the first time in nearly ten months. Upon return to Norfolk, WASP again assumed duties as COMSECONDFLT flagship, which she held through the remainder of the month. In late November, WASP again departed for Onslow Bay to successfully conduct Type Commander's Amphibious Training (TCAT) and her annual Combat Systems Assessment (CSA), enroute.

Returning to Norfolk in mid December, WASP fully loaded her shipfill allowance of ammunition and then tied up to end the year where it began, pierside, Naval Station Norfolk for holiday leave, upkeep and stand-down.
