I - NAVAL AVIATION PERSONNEL BILLET SUMMARY

AIR ACTIVATION SCHEDULE EFFECTING NAVAL AVIATION PERSONNEL

FY 1955

1. NAF Cubi Point is phasing in. Some personnel are being shifted from NAS Sangley Point to man Cubi. NAF Cubi Point will not be commissioned in FY 1955.
2. Air Force moving from NAF Iwakuni. Redesignated as a NAS and responsibility for manning this new NAS will be Navy.
3. Continental Air Defense Staff established.
4. FASRON 201 established at Malta.
5. VX-6 (Antarctic Squadron) commissioned.
6. One additional Carrier Air Group commissioned with personnel to be provided in FY 1956.

FY 1956

1. Three Air Early Warning (Barrier) squadrons VW-11, VW-13 and VW-15 commissioned.
2. AEW Staff commissioned.
3. One ZW squadron (ZW-1) commissioned for AEW Barrier.
4. NAF Cubi Point will be commissioned.
5. Lages, Azores will be commissioned as a NAF to support Continental Air Defense Barrier.
6. NAS FORREST SHERMAN will be commissioned to support 100 hr. jet training program.

RESULTANT CHANGES IN MANNING REQUIREMENTS

1. Manning one additional Carrier Air Group to full strength will increase the manning requirements of these forces by 174 officers and 990 enlisted.
2. The additional of 3 Air Early Warning Barrier Squadrons and a staff will require 450 officers and 1931 enlisted.
3. One additional ZW squadron will require 26 officers and 112 enlisted to attain 1/2 strength during FY 1956.
4. The commissioning of an Antarctic squadron will require 44 officers and 226 enlisted in FY 1955.
5. The manning level of PACFLT Carrier Air Groups and their maintenance support units had to be raised 5% during the last half of FY 1955. This increased manning level will be maintained during FY 1956. Complexity of new equipment and a rapid turn around for carrier air groups on deployments necessitated this increase.
6. The input to Flight Training will be increased on 1 July 1955 to eventually produce 3300 pilots per year. This increased training load and the additional AEW training required in Technical Training will require an additional 508 officers and 2934 enlisted.
7. The new 1000 officer pilot training program will require 1500 code 1300 officer billets. About 1184 enlisted billets will be required in Technical Training for the AEW Training Program.
8. Continental Air Bases will be reduced 500 enlisted in FY 1955 and 200 officers and 1072 enlisted in FY 1956.

These new additions to the Fleet Air Line (1-06) have been partially compensated for by the granting of additional billets to the air activities. Reduction within the Air Lines has been necessary, particularly in the Continental Air Bases, to make up the deficiency between additional billets authorized the Air Lines and the requirements for new missions.

The manning level of air operating forces will remain approximately the same during FY 1956 as end FY 1955. Additional personnel will be required, as outlined above, for additional forces.

IX - CONTINENTAL AVIATION SHORE ESTABLISHMENTS

The predicted size and composition of naval aviation shore establishments for the end of Fiscal Year 1955 are reflected in the missions summarized under the "Mission" columns. These missions are based on the Basic Naval Establishment Plan for FY 1955 and will be modified as approved aviation plans are issued. The ultimate pre-D-day base load by units shows the planned peacetime base loading for each station and is based on the present number of authorized units which have base capacity requirements. The current base loading lists the units assigned and or homeported at each station. These two columns are for base planning purposes only and do not grant authority for movement or relocation of units.

X - EXTRA - CONTINENTAL AVIATION SHORE ESTABLISHMENTS

The predicted size and composition of extra-continental aviation shore establishments for the end of Fiscal Year 1955 are reflected in the missions summarized under the "Mission" columns. These missions are based on the Basic Naval Establishment Plan for FY 1955, and will be modified as approved aviation plans are issued.

Maintain an emergency capability of supporting two VProns and their FASRON by using facilities available until suitable advance base type construction for this supporting function could be accomplished. Within the limits of forces assigned provide SAR facilities for area of responsibility assigned. Fleet surface units using the base will be self-supporting or accompanied, as necessary, by appropriate numbers and types of service ships. Existing facilities and installations not required for peacetime naval operations in the area will be retained in a maintenance status with minimum preservation to permit early activation to meet wartime requirements.</p>	<p>Naval Communication Station Landplane Patrol Sqdn. XVIII - NAVAL AND MARINE AIR RESERVE

A. NAVAL AIR RESERVE TRAINING UNITS

The following Naval Air Reserve Training Units will be supported by the naval activity to which attached. The mission of the following NARTUs will be to provide facilities to support the Naval and Marine Air Reserve Training Program, except where otherwise indicated:

NARTU	-	NAS Anacostia, D. C.
NARTU	-	NAS Jacksonville, Fla.
NARTU (LTA)	-	NAS Lakehurst (Naval Air Reserve Training only)
NARTU	-	NAS Memphis, Tenn.
NARTU	-	NAS Norfolk, Va.
NARTU (LTA)	-	MCAF Santa Ana, Calif, (Naval Air Reserve Training only)
NARTU	-	MCAS Miami, Fla.

B. ADDITIONAL ACTIVITIES

Additionally, it is planned that the 28 Air Reserve activities will support Drill Pay Reserve Auxiliary Air Units (AAUs), Auxiliary Ground Units (AGUs), and Bureau of Aeronautics Reserve Training Unit (BARTU) at outlying facilities where large potentials of Reserve personnel reside. For AAU operations, aircraft are flown to these locations, and flight training activities are provided at scheduled drills. Where lack of accessibility to the parent station makes weekend drill ferrying of aircraft impracticable, parent activities concerned are provided with appropriate numbers of additional personnel and aircraft in order to permit permanent flight operations at these fields. In such cases the outlying facilities include minimum working spaces leased from Municipal Airports, and are known as Naval Air Reserve Facilities (NARF). Presently, the following two such facilities are authorized:

Naval Air Reserve Facility, Salem, Oregon

Naval Air Reserve Facility, Salt Lake City, Utah
